Applied Acoustics **23** (1988) 323–324

CONTENTS OF VOLUME 23

Number 1

Static and Dynamic Characteristics of Machine Components in Contact . . 1
M. P. CHUNG (Taiwan), A. C. SINGHAL (USA) and W. H. CHEN (Taiwan)

Predicted Attenuation of the Plate-like Dynamic Vibration Absorber when Attached to a Clamped Circular Plate at a Non-central Point of Excitation . 17
R. L. KERLIN (USA)

Prediction of A-Weighted Aircraft Noise Based on Measured Directivity Patterns 29
S. PIETRZKO and R. F. HOFMANN (Switzerland)

Application of the Intensity Measurement Technique to Building Acoustics and the Influence of an Absorbing Partition Wall on the Measured Intensity . . 45
M. L. S. VERCAMMEN, H. J. MARTIN and W. M. J. CORNELISSEN (The Netherlands)

The Variance of Decay Rates at Low Frequencies 63
J. L. DAVY (Australia)

Calendar 81

Number 2

The Optimal Design of a Dynamic Absorber for an Arbitrary Planar Structure. 85
Y. Z. WANG and K. S. WANG (Taiwan)

How to Calculate the Efficiency of an Acoustic Barrier in a Flat Room . . 99
E. KOTARBIŃSKA (Poland)

The Achievement of Ensemble 109
G. M. NAYLOR (UK)

Transient and Steady-State Target-Resonance Excitation by Sound Scattering . 121
G. C. GAUNAURD and C. Y. TSUI (USA)

Effects of Friction Force on the Vibration of a Beam on an Elastic Foundation 141
M. P. CHUNG (Taiwan), A. C. SINGHAL (USA) and M. L. CHANG (Taiwan)

Book Review 157

Calendar 161

Applied Acoustics (**23**) (1988)—© Elsevier Applied Science Publishers Ltd, England, 1988.
Printed in Great Britain

Number 3

An Overview of EEC Directives on Noise from Products and Projects . . 163
B. HAY (UK)

Noise Limits in the Member States of the EEC for Four-Wheeled Motor Vehicles 167
B. HAY (UK)

Noise Limits for Motorcycles in the Member States of the EEC. 181
R. HEDGES (UK)

Maximum Permissible Noise Levels Emitted by Wheeled Agricultural and Forestry Tractors in the Member States of the European Community 191
R. M. STAYNER (UK)

Noise Limits in the Member States of the EEC for Subsonic Aeroplanes (as at 1986) 199
L. J. FENNELL (UK)

Helicopter Noise Certification 213
A. C. PIKE (UK)

Environmental Impact Assessment: A Framework for Project and Product Evaluation 231
P. W. ROBERTS (UK)

Calendar 243

Number 4

Die Berechnung von Resonanzen in Hohlräumen mit der Randelementmethode 247
CH. THOMANN (Switzerland)

A Monte Carlo Technique to Determine the Effectiveness of Roadside Trees for Containing Traffic Noise 263
S. H. TANG and P. P. ONG (Singapore)

Longitudinal Vibrations of a Rod Partially Embedded in an Elastic Foundation 273
C. P. FILIPICH, P. A. A. LAURA and V. H. CORTINEZ (Argentina)

The Prediction and Measurement of Acoustic Intensity in the Near Field of a Vibrating Surface. 281
R. J. ALFREDSON and I. J. PHELAN (Australia)

Sound Attenuation of Ear Protectors under Conditions of Impulsive Noise: Field Measurements 297
F. B. SHENODA (Egypt) and H. ISING (Federal Republic of Germany)

Active Cancellation of Transformer Noise: Field Measurements. 309
T. BERGE, O. KR. Ø. PETTERSEN and S. SØRSDAL (Norway)

Calendar 321
